STUDENTS ATHLETIC MEET OPENS IN Y.M.C.A.

Results of Handicap Events Indicate High Standard of Athletic Efficiency—Events Will be Extended Over Period of Five Weeks

Yesterday afternoon the first two events of the athletic handicap meet of the Y.M.C.A.'s opened at the Y.M.C.A., while the remainder of the events will be disposed of during the next five weeks. Every Thursday afternoon until the whole gamut of events has been run through, the students will be continuing.

The events yesterday were the standing broad jump and the 100 yards dash, and the results in both would appear to indicate that the evolution of the handicap system has added lustre to the athletic reputation of Edmonton in time to come, as is being effected in the Y.M.C.A. students class.

Breadth Jumps.

In the standing broad jump R. Engler, a youth of 16, sprung off front horns with a jump of 8 feet 9 inches, were the only members of the class who were not handicapped. Miller had a record of 9 feet, but he was unable to maintain this at the meet yesterday.

The names of the other competitors, with their handicaps and distances, are as follows:

R. Engler, 0 ft. Scratch, 0 ft.
E. Agar, 8 ft. 5 in. Scratch, 8 ft. 15 in.
L. Miller, 8 ft. 0 in. Scratch, 8 ft. 1 in.
R. McDermitt, 7 ft. 5 in. 1 ft. 8 ft. 5 in.
L. Moore, 7 ft. 2 in. 1 ft. 8 ft. 8 in.
H. Seeley, 7 ft. 5 in. 1 ft. 8 ft. 5 in.
R. Harmer, 7 ft. 4 in. 1 ft. 8 ft. 5 in.
Nildrie, 8 ft. 2 in. 6 in. 8 ft. 8 in.

Note—The first figures represent the actual distance, the second figures the handicap and the third figures the total distance.

100 Yards Dash.

In the 100 yards dash E. Agar and R. Engler were tied for first place, making 100 yards in 12 3-5 seconds.

and will be continued until February 22, when the final series of events, 22 in all, will have been disposed of. The meet will be concluded on Thursday evening of each week. The schedule will be similar to that of the students' meet, except that in the handicap events the weight of the shot will be of the weight of 12 lbs. instead of 8, while the race corresponding to the 200 yards potato race in the students' meet, will be 240 yards in the case of the seniors.

CHALLENGE ACCEPTED.

The challenge of the White boarders to the students' team was accepted quickly. The batch yesterday afternoon called up the Capital office and signified their willingness to meet the boastful Whites, and promised to whitewash them a little while off, and then paint more white or black, in the back yard or on any skating rink. Their team will be selected from the following men—Bernier, Evans, Arthur, Kennedy, Crispin, Evans, Bell, McLean, Sibley, Graham, Stewart, Jellet, Scrimpton, Bill, Walker, Pender, Clarke, Whitchurch, Franklin, Robinson, Moody.

PRESBYTERIANS WON.

The First Presbyterians defeated the Christ church team in a fast game at the Capital arena last evening by a score of 5 goals to none. The teams were almost evenly matched, but the Presbyterian forwards proved too heavy for their opponents' defense. Both teams showed considerable skill in combination and stick work. The half time was well played.

The teams lined up as follows:

Pres. church..... goal McLean
Watson..... point McGehee
Matthews..... cover point Bayce
Whitchurch..... center Munro
May..... right wing Currie
Mitchell..... left wing Hall
Kinnaird..... left wing Smart
Referee..... Caruthers.

CHARGES OF GRAFT.

Chatham to Have an Inquiry into a Waterworks Master.

Chatham, Ont., Jan. 18.—Veiled charges that a certain oil company had bribed the employees of the waterworks to use the company's special brands of machine and engine oils were made at the last meeting of the

water commissioners. Last night by R. Philmore, representative of the oil Commissioner W. H. Westman, W. company concerned, declared that there was no truth in such an assertion, and Mayor Brackin, chairman of the commission, stated that there would be no official investigation.

J. H. MORRIS & CO.'S 2nd O-U JUMBO SALE Saturday, January 21st to Saturday, February 4th

Men's Fur Overcoat Prices

We had a very successful trade in our Men's Fur Department, and our stock is limited to a few coats of each. CALGARY—Alberta Hotel.
STRATHCONA—Strathcona Investment Co.

QUESTION NOT. The spectacle of Commissioner Bouillon now whether threatening to sue Alderman Mould for libel he lacks tact because the alderman criticized the manner in which the commissioner had discharged the duties he is paid \$10,000 of the city's money to perform, is about as ridiculous as anything that was ever presented off the vaudeville stage.

If there ever was any doubt that Alderman Mould was justified in his criticism when he said the commissioner lacked tact, that doubt has been effectually dispelled by the letter which the commissioner had discharged to the press yesterday.

The question is not whether the commissioner lacks tact, but whether the city council, when it employed the commissioner at the highest salary paid in Alberta, did not overplay the matter by taking for granted that the man they were employing had common sense.

FELS' EXAMPLE Joseph Fels' ideas of sociology are intensely human. He has the single tax doctrine, but he does not let himself become dogmatic and in that dogmatism forget the fact that a sociological theory is only useful so long as it can help to lift society.

Few men in the world there are who, favored with the opportunity to enjoy Fels' millions, would follow the course which Fels follows, of consecrating his time and his money to an effort to bring in a new order.

It must occur to men of intelligence that a theory of sociology which has so taken possession of such a man must be worth looking into.

BEWARE OF SPECIOUS ARGUMENTS Ratepayers should beware of such specious arguments as the Journal's when it intimates that the city is likely to impair its financial standing should it undertake a municipal gas enterprise.

To convey this idea, the Journal, speaking of the gas franchise, uses the following circumlocutory method of expression:

In this connection however, it can be always well considered that a civic pulse has a limit as well as a private one, and that even the largest operators and contractors are willing if not compelled at times to sublet a portion of their development work to others.

The idea which the Journal intends to convey is without foundation. The city of Edmonton is in the best financial position of any city in the Dominion of Canada. The city's bonds are selling at a higher price on the London market than those of Canadian cities which do not own their utilities.

The city owes on utilities \$2,905,194, every dollar of which is represented in tangible assets in revenue-earning plant, and not one dollar of which is chargeable against the city's borrowing power.

If the city should decide to indulge in a municipal gas plant at an expense of another half million, the city's 20 per cent. borrowing power would not be impaired one cent. The amount would be charged to the utility debenture account, and not to the general debenture account.

No one dollar of the liability incurred by the installation of municipal utilities has ever been charged against the general taxation of the city, and there is no reason to believe that the taxpayer would be saddled with an additional burden through the installation of a gas plant.

There is no question about the city's financial ability to undertake the gas enterprise. On the contrary it might be shown that the city is in quite as good a financial position to do so as the people who are asking the franchise.

The question is whether the city desires to undertake the gas enterprise.

Until the agreement is brought in this question can not be answered. The Journal does not wait to analyze the agreement, but declares in favor of granting a franchise before an agreement is submitted.

The Journal is predisposed. Consequently its views are innocuous.

DOES PROTECTION ULTIMATELY PAY THE PROTECTED? The trade of Canada, per head, is greater than that of any other country, except Great Britain. Canada's trade, per head, is \$34.42; that of Great Britain

\$105.25; and that of the United States \$35.59. In the ten years, ended 1909, the increase of Canadian trade was 82.14 per cent., that of Great Britain 73.81 per cent., and that of the United States 55.10 per cent.

JUST PARAGRAPHS

Property on Yonge street, Toronto, is selling at \$6,875 per foot. Some people have strange ideas when they will pay that much for the privilege of living in Toronto.

And to think that Commissioner Bouillon managed to perpetrate himself on this city for nearly a year before being found out.

DEACONS WIN CLOSE GAME FROM BANKERS

Game is Characterized by Heavy Body Checking—
Bankers Show Wonderful Speed But Lack Combination. Score 3-1

STRATHCONA PROTESTS

Strathcona has protested Monday's game with the Deacons on the ground that Campbell did not have an amateur card. Campbell's card expired on January 8 and it was not renewed.

The protest is not worthy of very much consideration by Edmonton teams for although it will come before the committee, the Deacons has such small grounds on which to protest that it will in all probability be dismissed.

OLD TIMERS MEET AND RECALL EARLY

(Continued from Page One.)

The construction gang.

This was organized on December 17, 1879. Mr. Taylor appeared over the edge of the river bank on the south side with his wife, and found shelter for his ticket in the shack of John Wilson. The game was the second, and the wire was strung on the south side, and the instrument installed in a room in the old Hudson Bay fort.

For the benefit of the settlers and traders who were here at that time, Mr. Taylor used to get through the wire every day or so, a budget of outside world news, probably too good for Mr. Taylor would make five copies of the budget, for which he would distribute to the prominent citizens, the fifth, he would post up on the door of the Hudson Bay post, where the populace could read.

Among the traders who had stores here was Frank Oliver, who in his youth had been a printer. Mr. Taylor dug a trench to him, and the wire was strung and spliced and printed news bulletins. Frank Oliver took up the suggestion, and the next summer when he made his annual tour in an ox-cart to Winnipeg, he brought back a copy of the budget, for which he body type and a letter press.

But he forgot big type for the heading of the sheet. Alex Taylor was resourceful and came up with a paper clip and some wire and printed news bulletins. Frank Oliver took up the suggestion, and the next summer when he made his annual tour in an ox-cart to Winnipeg, he brought back a copy of the budget, for which he body type and a letter press.

Some years later the government telegraph office was moved up to the corner of Sixth and Hardisty, where Dr. Wilson had a drug store and small grocery store part of it. Mr. Taylor installed his instrument. Later, when Mr. Taylor married, he removed the instrument to his home, and in the early '90's the office was moved to a frame building, the present one, which was asked to vacate his position. He did so, but the goal was allowed.

The penalties were numerous, but there was little deliberate dirty playing. Most of the penalties were given.

One day he got the pieces mixed, and the paper came out with the heading "The Bankers".

At last the Deacons sent one for the Deacons' mother for the Bankers. A few minutes after the interval Franks shoved one through from the wing, but the Deacons claimed that it leaked through a hole from the back, and the ball went through the back, checking and heavy defense work.

The coin flippers appeared to be afraid of nothing, using their bodies freely and after a few minutes had won the game. Goodrich and Aldens was the best; they have done this year. Goodrich is a clever player, not fast but he is a good stick handler and uses his head as good as usual.

For the Bankers, the left fielder played on the left wing. He lacks experience but with a few games should make good. Try to play a fast and skillful game.

The defense was poor.

**Her Face and Body Were
Littery Covered With
"BOILS."**

**Burdock Blood Bitters
Cured Them.**

Mrs. John H. King, Johnston, N.B., writes—"Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to take Burdock Blood Bitters, and got three bottles, and before I had taken all the first one my boils began to pass away. I have just taken a few doses out of the last one, and they are all dispensed. My husband has also used Burdock Blood Bitters with much benefit."

Boils in themselves are not a dangerous trouble, but still, at the same time, they are painful. They are easily cured by hot bath, and to get rid of them it is necessary to put the blood in good condition, and for this purpose there is nothing to equal old and tried remedy, Burdock Blood Bitters.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A JUDGE AND POLITICS

Sir Horace Avery, speaking at a dinner given recently in honor of his appointment as a judge of the High Court, told an amusing anecdote of how he was led to throw over politics.

"I defended," he said, "a large number of strikers—Maidstone, I think it was—who had fallen foul of the law, and they all got off. Within three days of the verdict I was invited to stand as the Radical candidate for that part."

"A few months later I prosecuted a number of Socialists and extreme Radicals who had created a disturbance."

ances in the vestry drill in the same district. The men were convened and within a few days I was invited to stand as the Conservative candidate.

"I considered the two offers, and decided to refuse to have anything more to do with politics."

AT THE EMPIRE

Since coming to Edmonton, the Geo. H. Simms Co. has succeeded in securing for itself the name of being one of the best stock companies that has been in the city for a number of years, and is efforts in "The Bell," which was presented last night, will go far toward establishing its reputation as a class company.

"The Bell's" is an ambitious play of the weird and melodramatic order and gives a new scope to historical drama. In fact, it calls for particular ability, especially the role of Mathias, the burgomaster, and that it was given an excellent characterization by that versatile actor, Mr. Wm. E. Blaier, was apparent to all. The scenery was beautiful and the mechanical and light effects entirely new, novel and elaborate. All the supporting parts were highly commendable, playing their several parts in an accomplished manner. The bright vaudeville under the acts was very excellent and received hearty applause. There is no doubt that the house will be crowded to-night for the advance sale of tickets is large. "The Bell's" will be repeated to-night.

**MOISSANT AWARD
LIKELY TO STAND**

English Aviator's Claim for Statue of Liberty Flight to Avail Naught

New York, Jan. 17.—The Aero club of America to which was referred final settlement of the protest made by Claude Graham-White one British aviator, against the award of the Thomas F. Ryan \$10,000 Statue of Liberty prize to the late John B.

Moissant, will rule in favor of the Moissant estate when they take the matter up again. They asserted that in view of the fact that the British Aero Club had changed its grounds for protest, and now wanted Moissant's flight disqualified because he failed to remain in the air for an hour

during the progress of the meet before starting on the cross-country flight, the matter could easily be disposed of. The rules of the Aero Club which calls for the ratification of changes in the rules by the sporting committee, as well as by the meet officials, was complied with, the local

officials say, and it was only after the sporting committee gave permission that Moissant started on his flight.

But if the award cannot be made the heirs of "Johnny" Moissant, the \$10,000 will be turned back to Thomas F. Ryan. The members of the Aero Club made this plain today. The officials of the meet disqualified Graham-White in his Statue of Liberty flight for fouling the fifth pitch in his flight. If Moissant cannot be recognized because he had not been in the air on hours, as the original conditions called for, then the Lesseps, the third man, who made the flight, also failed to meet the requirements. By making this ruling, then, the Aero Club would be compelled to turn the money back to Ryan.

TOLD BY PAULINE CHASE

Many playgoers have heard with interest coupled with the keenest disappointment that Miss Pauline Chase is going to give up the nerve racking work of the footlights for the equally nerve-wrecking career of the wife of a flying man.

Like all actresses, Miss Chase can tell many good stories of the stage, one of the her best dealing with the chaffeur of an actor friend of hers. One night he asked her "shove it" where he would like a seat to see the play.

"No, thank you, sir," was the reply. "I think I'd never stop outside and smoke. You see, I don't care much for plays."

Rather annoyed that his matrimonial abilities should arouse such little interest in the minds of his own household, he took no more notice of the master, but after the play was over the chauffeur remarked: "I went inside sir, after all."

"Well, what do you think of it?"

"I thought it fine, sir. It made me laugh, and here was no one killed or murdered or anything. I'm glad I went in now. But I thought you said it was a play!"

EXILED PRINCESS RETURNS TO ITALY

Maria Pia, Daughter of Victor Emmanuel, Is Driven From Portugal

Rome, Jan. 17.—Another daughter, Maria Pia, of Conqueror Victor Emmanuel has returned to this country, her native land, to end her days, after having been exiled from Portugal and seen her son and grandson murdered. Maria Pia has gone to the Palace of Caserta, n castle which formerly belonged to the Kings of Naples. As many other places, this one was a copy of Versailles, built by the ambitious Charles III., King of Naples, who boasted that it would surpass Versailles in size and beauty. What experts consider the prettiest and most originally-designed ecological garden is now being completed here, as it has been built on what is known as the "cageless" principle. Lions, tigers, leopards, panthers, hyenas, bears and other wild beasts are seen in natural caves and dens, with nothing between the animals and the public in the way of iron bars or cages to interfere with the view. Although the animals appear to be at liberty they are ingeniously confined to their rightful quarters by the employment of switches and other ingeniously-concealed devices. The beauty of these gardens is the natural habitation of the animals, and the unscientific views of wild life obtained from various parts of the grounds.

The twentieth national Catholic congress closed at Modena, after five days' discussion, in which the modernist tendency, represented by the young Christian democratic party, triumphed.

In consequence of the victory of the progressive Catholic forces at Bologna in 1903, under the presidency of the outspoken demagogue, the late Cardinal Stampa, the Vatican forbade dissident organizations and has voted the reassembly of the congress for seven years past. Pope Pius X. gave permission for the holding of the congress for the purpose of reviewing the work of the Catholic forces after the long term of inactivity issued during his pontificate requiring the statutes to be followed.

DEFINING A PHENOMENON

An English workman endeavoring to explain to one of his mates what a phenomenon was made the following attempt:

"It's like this: Suppose you were to go out into the country and see a field of thistles growing."

"Yes," asserted his friend.

"Well that would not be a phenomenon."

"No, that's quite clear," agreed the other man.

"But suppose you were to see a lark singing away up in the sky."

"Yes."

"Well, that would not be a phenomenon."

"No, that also seems clear."

"But, imagine there was a bull in the field."

"Even that would not be a phenomenon."

"No."

"But, now, Bill, look here. Suppose you saw that bull sitting on them chestnuts, whistling like a lark — well, that would be a phenomenon."

Don't Be Bald

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 93 of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be—and no one should doubt until they have our claims to an actual test.

We are so certain Rexall "up" Hair Tonic will cure dandruff, prevent hair loss, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally guarantee success. You can return every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "up" Hair Tonic is an pleasant to use as clear spring water. It is delightfully perfumed, and does not crease or gum the hair. Two sizes, 5oz. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store. A. Archibald.

HER SPORT

It is true that some girls, marrying men to reform them, succeed. Some girls, too, fail.

The hostess at a tea once said to a blushing seduced woman:

"Are you fond of sports, Mrs. Blank?"

Miss Blank smiled. Her sad eyes twinkled a moment. Then she sighed and answered:

"Well, I suppose I ought to be. I married one."

NEWS OF THE CITY

Building Inspector Cotrell is still confined to his house as the result of his attack of grip.

The annual meeting of the congregation of Knox church, Strathcona, was held last evening.

The dance given by the restaurant of Mrs. Iris A. Christiansen, 356 one street, of their son, aged five years, one place from their residence this afternoon at 5 o'clock.

The Sons of England will hold a Cinderella dance in the Separate school hall this evening.

Mrs. L. F. Clarry and Miss Clarry, 438 Twelfth street, will receive today for the first time since coming to Edmonton.

H. M. Trimble, the well-known curler of Lacome and Calgary, is seriously ill at home in Lacome with an attack of pneumonia.

The Caledonian society will hold their annual Burns supper in the Separate school hall, Third street, on Wednesday, January 25th, commencing at 8:30.

The Grand Council of the Royal St. John's Ambulance will hold a meeting in the Boys' Exchange offices this evening at eight o'clock.

The grand concert in connection with the opening of McDougall church, which will be held this evening, promises to be one of the leading musical events of the season.

In a report upon the health of school children Dr. Dunn stated that defective vision and other eye trouble numbered 16. Total eye defects, 23, total ear defects, 6; nose and throat defects combined, 6.

Estimates of the electric light, telephone, engineering and stores departments have been completed and will be discussed by the members of the board of governors of the departments this afternoon. The estimates of the schools will be submitted to the board of governors on Friday, January 26th.

Information has now been furnished by the commissioners to the power committee of the department, and these will be submitted to the board of governors in the course of a few days. The power house departments will be submitted to the minister of education by the end of January.

This afternoon a delegation of east enders will wait upon the council at 5 p.m. to present their views on the location of the east end bridge at the point where the Bow River turns to the north. They believe that the more easterly of the locations, at the base line, would have far more safety and convenience than they yet realize to secure that chance.

S. E. Savage, Calgary, one of the best known curlers in the West, arrived in the city Thursday and will play with McKillip's rink. Mr. Savage was unable to be here at the opening owing to the death of his brother.

The sixth annual bonspiel of the Saskatoon Curling club will open in that city on January 25th and continue for seven days, closing on February 2nd. Over \$3,000 in cups, medals and cash prizes will be distributed among those participating. All entries must be in the hands of the secretary not later than four p.m. on January 25th.

Mr. Gust Carlson, of Wetaskiwin, is visiting Edmonton as representative of the Wetaskiwin school board, to investigate the system of water and sewer connection in the schools of Edmonton. The Wetaskiwin people installed last fall, a water sewage system for the town and will connect it with the schools as soon as the frost is out of the ground.

Last evening the Edmonton Irish association held its annual reunion in the Mechanic's hall and the event proved one of the most successful that has yet been held under the auspices of the association. The earlier part of the evening was passed with a programme of song and instrumental music. Dancing commenced at 11 o'clock. Hess, Turner and McMahon furnishing the music.

Mayor Armstrong and a delegation from the city council appeared before the school board, with Capt. Chadwick and Chief of Police Lancey, with a suggestion that the duties of the trustee officer should be combined with those of the officer appointed to look after delinquent children. The city agreed to put up \$50 towards the salary of the officer, if the board would put up a similar amount. The board will consider the proposition and report in a few days.

SOCIAL

Mrs. Fred Newton, 324 Fourth street will receive today and afterwards on the fourth Friday of each month.

Mrs. Herbert Baker 1315 Prince avenue, will receive this afternoon from four to six for the first time since coming to the city, and afterwards on the third Thursday of each month.

Mrs. R. W. McKinnell will receive for the first time since coming to Edmonton, at her home 657 Fifteenth street, on Monday the 25th, and afterwards on the third Monday of each month.

TO LATE TO CLASSIFY.

WANTED—HEAVY OR THEREABOUTS NARROW, 1,460 lbs. or thereabout. Any Arthur Boland in every part of Alberta, B.C. Bloomer, 2000' Ave. west, or 819 Twelfth St.

THE EDMONTON CAPITAL

NEWS FROM THE SISTER CITY

PLAN ELECTION OF HOSPITAL THIS YEAR

Structure Will Cost Approximately \$80,000—Site Still to Be Selected

Strathcona, Jan. 20.—After a wait of four years since debentures were authorized for the building of a new hospital it is now almost assured that the structure will be erected this year. For months the matter has been in the hands of a special committee of council members and other citizens and numerous meetings have been held with University officials with a view of having the institution placed in a desirable location on the university grounds but owing to the rather unsettled state of provincial university affairs until the amendment was passed by the recent legislature, there was no satisfactory or definite agreement reached. It was the original purpose and is one that will probably be carried out in time, that the city proceed in the erection of a hospital on the university grounds with the understanding that the university later add to the institution sufficiently to make it a provincial hospital in a proper sense of the term, and this idea will probably be carried out at some future time when the university grows large enough to conduct a strong medical school.

It has been ascertained from the committee that the hospital question will be decided this year and a building erected during the coming summer. Debentures for the building of a municipal hospital are already issued but remain unsold so that the necessary funds may be obtained for a structure costing between \$6,000 and \$8,000 on very short notice. A splendid site originally intended for the hospital is now owned in the west end by the city but with the building located on the University grounds this site will probably be disposed of.

What action the University will take in assisting in the building remains unsettled but a decision is expected long from the board of governors. With the city and university working together in the establishment of a hospital here there might be operated one of the best institutions of the kind in the province. Certainly the city is now in need of a larger hospital and the committee assert that the building will be up before another year rolls around.

Annual Meeting Tonight.

The postponed annual congregational meeting of Knox church will be held tonight. A complete report from the treasurer will show how the receipts have been expended during the past year and the evening's business will further include the election of officers for the present year.

Sheppard's Rink Victorious.

An interesting curling match was run off at the rink Tuesday night when skips Sheppard and Ritchie played the final in the Vegreville Merchant's cup competition, for which they both qualified in the recent "spells" of the C.N.R. For a time the game was close and doubtful but in the last ends Sheppard drew away and ended the score on Ritchie, the final figure being 14 to 7 in Sheppard's favor. This end the big bonspiel now in progress is marked with keen playing on excellent ice. In serving refreshments at the rink waiting rooms the Ladies' Hospital aid of the city are doing a very successful run of business. Indications are that the goodly sum will be turned over to the hospital through the untiring efforts of the numerous ladies who are working for the cause.

Cadet Battalion Increases.

Since winning the national distinction last year in capturing the Earl Grey shield for the largest total corps capita in the Dominion, the Strathcona Cadets are allowing no opportunity to slip for the extension of the battalion and the enrollment now reaches well on to the 200 mark. The initial figures are about 100 and this is a remarkable showing for a city the size of Strathcona is amply proven by the fact that the shield was won last year with a total enrollment of but 120 cadets. This increase would appear to determine already the position of the shield for this year.

Very Successful Social.

St. Anthony's hall was the scene last night of a very happy gathering when the ladies of the church held their monthly Parish social. The progressive card games developed keen competition and the drawing for the clock was interesting. The proceeds from the collection were very satisfactory.

O. M. I. COLLEGE IS NEARLY FINISHED

Handsome Trophy for Interprovincial Collegiate Competition Has Been Donated

Strathcona, Jan. 20.—Across Mill Creek valley near the eastern boundary of the city there has been built in the last three months an imposing pile of masonry which gives further educational distinction to Strathcona through being the third institution of the kind in the province. The institution is the O.M.I. college of the Roman Catholic church and its location in this city was brought about last year through the efforts of Rev. Fr. Fischer, Jan. 10th, and Mr. Charles here. When the special committee for choosing a site for the college made known their mission one year ago there were a number of sectarian members who spoke against the location offered, but the location offered in Strathcona was finally considered superior to all the others by reason of this city being the home of the University of Alberta.

It is believed that the site, the Rutherford property overlooking Mill valley and the two cities is almost unequalled in the west. Eight acres were secured for the building site and it is on the most elevated portion of the property that the big college has been erected.

Ready in March.

When the committee for the erection of the college was formed some time ago it was stipulated that it be ready for occupancy by the first of January of this year but delays have occurred in the finishing of the building and it will not be opened until some time in March. The structure is three stories in a full height and of large dimensions with a full sized basement. One hundred feet in width and 100 feet in depth. It is a handsome brick residence for the staff of instructors this house being connected with the main building by a large underground tunnel through which will run the heating and water pipes. The estimated cost of the college will be in the vicinity of \$60,000. It is so designed that when necessary additions can be made to increase the capacity to one hundred students.

The Strathcona O.M.I. college will be the third of the order in Canada. The other schools of the order are at Ottawa, Victoria and Inverness. Scotland. The college is similar to the ordinary high school in its educational standing but is the training school for youths intending to enter the priesthood. At least eight hours will be spent on the faculty in St. John's school when it opens this year.

Sheppard's Locals.

After a short illness Mrs. E. DeFrain died yesterday at 10 o'clock. The news of her death came as a shock to a wide circle of friends through its suddenness although her condition had been deteriorating for some time. Also her daughter Mrs. DeFrain gave birth to a child and never recovered. The infant is doing as well as can be expected. Mr. DeFrain is well known throughout the city in the real estate business. Funeral arrangements are yet to be made.

The students of the University are sending invitations to their friends to a second annual convocation to be given in the assembly hall of the Strathcona College Institute on the evening of February 2nd. The affair in this nature was given by the students last winter and was a brilliant event.

The superintendence of city water works is somewhat, while the late cold snap was a severe test to the system, there has not developed a case where the city is liable for damages through effects of freezing. There is a great deal of carelessness with water hydrants which are watched by the department. There are about 120 of these in various parts of the city and not one has been frozen during the winter. The snows also have kept largely free from ice.

AUCTION SALE.

at our rooms 311 Namayo Ave., Saturday, January 21, 7.30 p.m.
